PROFESSIONAL SUMMARY

Senior Laravel Developer with **8+ years of experience** building, scaling, and maintaining robust web applications. Strong expertise in **Laravel, RESTful APIs, real-time systems, and modern frontend integrations (Vue, React, Livewire)**. Proven leader with experience mentoring developers, leading projects end-to-end, and collaborating with cross-functional teams in Agile environments.

EDUCATIONAL BACKGROUND

University of Caloocan City – Congressional Campus

Bachelor of Science in Information System

Congressional Road, Caloocan City

2014 – 2018

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE DEVELOPER

React Solutions PTY Ltd.

Feb 2024 - Present

- Contributed to the development and maintenance of backend APIs for a React-based application, working with Laravel to implement new features, optimize endpoints, and ensure overall system stability during a short-term project assignment.
- Assisted in enhancing an e-commerce React application, supporting both frontend improvements and backend integration to ensure smooth user experience and efficient data flow.
- Led the development of a Call Module for the company's CRM system, taking ownership of its architecture, implementation, and integration. This included designing workflows, building scalable components, and improving communication features that support internal and client operations.
- Collaborated closely with cross-functional teams to deliver high-quality, maintainable solutions while adhering to project timelines and coding standards.

JUNIOR SOFTWARE DEVELOP - SOFTWARE DEVELOPMENT LEAD (Laravel)

Halcyon Digital Media Design Inc.

May 2018 - Feb 2024

Progressed from **Junior Developer** to **Software Development Lead**, contributing to and leading multiple Laravel-based projects across portfolio websites, e-commerce platforms, and custom business applications.

- Led end-to-end development of scalable Laravel applications, ensuring code quality, security, and on-time delivery
- Designed and implemented RESTful APIs for seamless integration between front-end and backend systems
- Collaborated closely with front-end developers and UI/UX designers to deliver responsive, user-centric solutions
- Optimized database queries and application performance to improve scalability and responsiveness
- Conducted code reviews and enforced coding standards and best practices
- Mentored junior developers and guided team members through technical challenges
- Actively participated in Agile workflows, including sprint planning, estimations, and retrospectives

INTERNSHIP

BOLDR IMPACT

1701 Tycoon Center Ortigas, Metro Manila

1st IT Staff developed Human Resource Management Information System with Payroll System and QR Code Scanner for time-in and time-out.

March 2017 - March 2018

TECHNICAL SKILLS

Programming Languages

PHP | JavaScript | SQL

Backend Development

Laravel | RESTful API Development | MVC Architecture | Third-Party API Integration

Frontend Development

React.js | Next.js | HTML | CSS | Tailwind CSS

Databases

PostgreSQL | MySQL | Database Design | ORM (Eloquent, Drizzle ORM)

AI-Assisted Development

OpenAI Codex | Prompt Engineering | Rapid Prototyping
